Here is the email confirming a meeting with the guy from YouTube who leads the music monetization where we presented SuperStar (see whitepaper on pinning comments on live streams by paying)

Exactly 9 months later like a baby they launched SuperChat which does exactly the same

We met with the head of Google monetization years ago to demo our parents SuperStar and less then a year later they came out with this almost identical feature:

<https://www.srlounge.com/youtube-debuts-super-chat-new-feature-for-creatives-to-make-money-with-live-streams/>

this is taken from our patent 10,474,687

<https://patents.justia.com/patent/10474687>

see attached white paper attached

we called it Super Star they called it Super Chat, nice
